Authorize the Department of Health and Human Services (DHHS), Division of Public Health Services (DPHS), Bureau of Disease Control, Immunization Section to enter into an agreement with Mid-State Health Center, 101 Boulder Point Drive, Plymouth, NH 03264, (Vendor# 158055 B001), to serve as a regional sponsoring site on behalf of the New Hampshire Immunization Program retroactive from September 23, 2009, through June 30, 2011. Funding is available through the American Recovery Reinvestment Act of 2009 in an amount not to exceed \$64,303. Funds are available in the following account, with authority to adjust amounts if needed and justified between fiscal years:

05-95-90-902510-0906 HEALTH AND SOCIAL SERVICES, DEPT OF HEALTH AND HUMAN SERVICES,
HHS: DIVISION OF PUBLIC HEALTH, BUREAU OF DISEASE CONTROL, IMMUNIZATION SECTION

Fiscal Year	Class/Object	Class Title	Job Number	Total Amount
SFY 2010	102-500731	Contracts for Program Services	90900002	\$ 27,558
SFY 2011	102-500731	Contracts for Program Services	90900002	\$36,745
		Total Amount		\$64,303

EXPLANATION

Federal stimulus funds made available by the American Recovery and Reinvestment Act of 2009 will be used to procure Mid-State Health Center's services as a regional sponsoring site for New Hampshire's Immunization Program's Immunization Initiative. Mid-State Health Center is a Public Health Network (PHN)

agency that will act as the coordinating entity to develop, exercise, and evaluate the regional public health emergency response plan in the Public Health Region 4 serving the towns Ashland, Campton, Ellsworth, Groton, Holderness, Plymouth, Rumney, Thornton, Warren, Waterville Valley, and Wentworth. In addition, this funding will support one full time contracted position, and the organizational capacity to convene, coordinate and facilitate efforts among a broad range of community partners within the PHN in an effort to expand the number of community stakeholders who are committed to increasing vaccination rates in all New Hampshire residents. These activities are integral to the State's ability to implement an effective response to a public health emergency as described in the federal Pandemic and All Hazards Preparedness Act. Retroactive approval is requested due to a delay in receiving the grant award and the time sensitive contracted activities that needed to begin in September.

The proposal to support services in the region was selected through a Request for Proposal process sent to local organizations on June 15, 2009. A legal notice was published in the New Hampshire Union Leader soliciting RFP's on June 15, 16, and 17, 2009. In addition, a bidders' conference was held to alert agencies to this bid on June 22, 2009. The RFP was also posted on the DHHS web site.

The RFP solicited proposals in order to procure the services of a single local agency to serve as a regional sponsoring site for each region. Eleven Letters of Intent were received. In all, six proposals were submitted for consideration. A review committee consisting of six professionals evaluated the proposals. The review committee included DHHS and Homeland Security staff with expertise in planning, community-based services, program administration, and emergency preparedness. The scoring criteria focused on the bidder's capacity to perform the scope of services and the ability to collaborate with regional partners. Six non-competing proposals were received for services to be provided in six of the fifteen regions. The reviewers determined that all of the non-competing proposals met the requirements and selected all of them for funding.

Because vendors from only six of the fifteen regions submitted proposals, the DPHS Immunization Program was able to increase the award from the original proposal. Mid-State Health Center requested \$50,250, and was awarded \$64,303, pending Governor and Council approval. The grantee was asked to assume additional responsibilities and to work additional hours necessitating the need for the increased budget. These additional hours and responsibilities are essential in confronting the seasonal flu and H1N1 preparedness.

The following performance measures will be used to measure the effectiveness of the agreement.

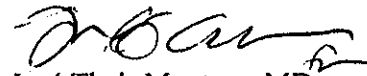

- Number of updated plans and annexes submitted to the DPHS within a timeframe required by CDC and ARRA
- Number of training programs offered to local school districts, community agencies and partners

The geographic areas to be served include the towns of Ashland, Campton, Ellsworth, Groton, Holderness, Plymouth, Rumney, Thornton, Warren, Waterville Valley, and Wentworth

Source of Funds: 100% Federal from the American Recovery and Reinvestment Act (ARRA),

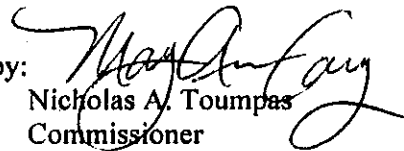

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

José Their Montero, MD
Director

Section 1512 Reporting:

ARRA imposes transparency, oversight and accountability requirements, including, without limitation, the reporting requirements in the Jobs Accountability Act in Section 1512.

Definitions. As used in this Section 1512 reporting clause, the following terms have the meaning set forth below:

Contract: means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications, grants, and cooperative agreements.

First-tier subcontract: means a subcontract awarded directly by a prime contractor whose contract is funded by ARRA.

Jobs created: means an estimate of those new positions created and filled, or previously existing unfilled positions that are filled, as a result of funding by the American Recovery and Reinvestment Act of 2009 (Recovery Act). This definition covers contractor/grantee positions established in the United States and outlying areas (see definition in FAR 2.101). The number shall be expressed as "full-time equivalent" (FTE), calculated cumulatively as all hours worked divided by the total number of hours in a full-time schedule, as defined by the contractor/grantee. For instance, two full-time employees and one part-time employee working half days would be reported as 2.5 FTE in each month.

Jobs retained: means an estimate of those previously existing filled positions that are retained as a result of funding by ARRA. This definition covers contractor positions established in the United States and outlying areas (see definition in FAR 2.101). The number shall be expressed as "full-time equivalent" (FTE), calculated cumulatively as all hours worked divided by the total number of hours in a full-time schedule, as defined by the contractor. For instance, two full-time employees and one part-time employee working half days would be reported as 2.5 FTE in each month.

All jobs created (FTEs) added to all jobs retained (FTEs) should equal the total jobs (FTEs) being paid for with the ARRA contract/grant funds received pursuant to this Agreement by the contractor/grantee. Stated otherwise, all jobs (FTEs) being paid for with funds provided by this agreement minus all jobs created (FTEs) should equal all jobs retained (FTEs). A job cannot be reported as both created and retained.

Total compensation: means the cash and noncash dollar value earned by the executive during the contractor's past fiscal year of the following (for more information see 17 CFR 229.402(c)(2)):

- (1) Salary and bonus.
- (2) Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.
- (3) Earnings for services under non-equity incentive plans. Does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees.
- (4) Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.
- (5) Above-market earnings on deferred compensation which is not tax-qualified.
- (6) Other compensation. For example, severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property if the value for the executive exceeds \$10,000.

The Contractor/Grantee shall provide the data needed for Section 1512 reporting monthly in the format defined by the Contracting Officer/Grant Manager. The report format may be changed over time if the federal government issues guidance or establishes requirements for a different format.

Section 1512, at a minimum, requires the following data from the Contractor/Grantee:

- (2) An estimate of the number of jobs created by the project or activity by job type;
- (3) An estimate of the number of jobs retained by the project or activity by job type;
- (4) Total hours of employees working on the project or activity (subtotal by jobs created and existing jobs);
- (5) Total wages for employees working on the project or activity (subtotal by jobs created and existing jobs);
- (6) For infrastructure investments made by State and local governments, the purpose, total cost, and rationale of the agency for funding the infrastructure investment with funds made available under this Act, and name of the person to contact at the agency if there are concerns with the infrastructure investment; and
- (7) Detailed information on any subcontracts or subgrants awarded by the recipient to include the data elements required to comply with the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), allowing aggregate reporting on awards below \$25,000 or to individuals, as prescribed by the Director of the Office of Management and Budget.

c. To assure compliance, for any contract or grant, including any sub-contract or grant exceeding \$100,000 the contractor/grantee and sub-contractor/sub-grantee must submit and update as required a "Disclosure of Lobbying Activities" form, (OMB Standard Form LLL), available at <http://www.nh.gov/recovery/library/index.htm>.

1. During the grant or contract period, contractors/grantees and sub-contractors/sub-grantees must file disclosure form (Standard Form LLL) at the end of each calendar year in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any previously filed disclosure form.

2. Lower tier certifications should be maintained by the next tier above (i.e. prime contractors/grantees will keep the subcontractors/subgrantee's certification on file, etc.)

3. Standard Form LLL will be provided during contract execution for utilization during the required contract period.

Funds appropriated under the ARRA can, under certain circumstances, be used for grants to nonprofit organizations. However, grants cannot be awarded to a nonprofit organization classified by the Internal Revenue Service as a 501(c)(4) organization unless that organization certifies that it will not engage in lobbying activities, even with their own funds (see Section 18 of the Lobbying Disclosure Act, 2 U.S.C.A § 1611).

10. The Contractor/Grantee, and any subcontractor/subgrantee, shall immediately refer to an appropriate inspector general within the U.S. Department of Health and Human Services, Office of the Inspector General, and to the Public Integrity Unit of the New Hampshire Attorney General's Office (603) 271-3671, any credible

evidence that a principal, employee, agent, contractor, sub-grantee, subcontractor or subgrantee, or other person has submitted a false claim under the False Claims Act or has committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct involving those funds.

The Contractor/Grantee, and any subcontractor/subgrantee agree to maintain at each worksite and location of work funded by this Agreement a poster describing how to report fraud, waste, or abuse of ARRA funds. A model poster for this purpose, which also incorporates the whistleblower notice requirements, is available at <http://www.nh.gov/recovery/>.

- 11 Any funding provided to the Contractor/Grantee pursuant to the Recovery Act that is supplemental to an existing grant is one-time funding.
- 12 The Recovery Act funds are not eligible for costs incurred prior to the date of obligation.
- 13 The Contractor/Grantee agrees that in compliance with ARRA section 1604 none of the funds appropriated or otherwise made available in this Act may be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.
- 14 The Contractor/Grantee agrees to establish and maintain a proper accounting system in accordance with generally accepted accounting standards.

To maximize the transparency and accountability of funds authorized under ARRA as required by Congress and in accordance with 2 CFR 215, subpart ____ 21 "Uniform Administrative Requirements for Grants and Agreements" and OMB A-102 Common Rules provisions, the Contractor/Grantee agree to maintain records that identify adequately the source and application of Recovery Act funds.

For recipients covered by the Single Audit Act Amendments of 1996 and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," recipients agree to separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards (SEFA) and the Data Collection Form (SF-SAC) required by OMB Circular A-133. This shall be accomplished by identifying expenditures for Federal awards made under Recovery Act separately on the SEFA, and as separate rows under Item 9 of Part III on the SF-SAC by CFDA number, and inclusion of the prefix "ARRA-" in identifying the name of the Federal program on the SEFA and as the first characters in Item 9d of Part III on the SF-SAC.

Recipients agree to separately identify to each sub-recipient, and document at the time of sub-award and at the time of disbursement of funds, the Federal award number, CFDA number, and amount of Recovery Act funds. When a recipient awards Recovery Act funds for an existing program, the information furnished to sub-recipients shall distinguish the sub-awards of incremental Recovery Act funds from regular sub-awards under the existing program.

Recipients agree to require their sub-recipients to include on their SEFA information to specifically identify Recovery Act funding similar to the requirements for the recipient SEFA described above. This information is needed to allow the recipient to properly monitor sub-recipient expenditure of ARRA funds as well as oversight by the Federal awarding agencies, Offices of Inspector General, the Government Accountability Office, and the State of New Hampshire.

Where applicable, Recipients will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

the Contracting Officer/Grant Manager within 30 days of being debarred or suspended from federal government contracts.

19. The Contractor/Grantee shall cause the provisions of this Exhibit C of the General Provisions to be inserted in all subcontracts for any work or project activities covered by this Agreement so that the provisions will be binding on each subcontractor or subgrantee. The Contractor/Grantee shall take such action with respect to any subcontract as the State, or, the United States, may direct as a means of enforcing such provisions, including without limitation, sanctions for noncompliance.

TERMS APPLYING ONLY TO SPECIFIC CONTRACTS/GRANTS

The following Use It or Lose It – Report It or Lose It provision should be used where the State has authority to withdraw funds if the contractor/grantee fails to perform on time or fails to file required reports. Where the State is obligated by federal or State law to provide the funds being awarded or granted, omit this provision. Contracting Officers may exercise discretion and omit the provision where the nature of the goods or services being acquired and the nature of the contractor/grantee makes the provision inappropriate or unnecessary. Questions regarding use or omission of the provision should be discussed with the Assistant Attorney General Assigned to your Department and/or the Business Supervisor from the Department of Administrative Services assigned to your Department.

Use It or Lose It and Report It or Lose It Requirement. This contract/grant is being funded by funds received by the State of New Hampshire pursuant to ARRA. Federal law provides in part that in using funds made available under ARRA for infrastructure investment, recipients shall give preference to activities that can be started and completed expeditiously, including a goal of using at least 50 percent of the funds for activities that can be initiated not later than 120 days after the date of the enactment of ARRA. Federal guidance also directs that all ARRA funds be put to work in the community promptly. Recipients shall also use grant funds in a manner that maximizes job creation and economic benefit. ARRA imposes enhanced levels of accountability and transparency.

Therefore, prompt and accountable performance of this contract/grant is OF THE ESSENCE. Thus, for all obligations of the contractor/grantee, time is of the essence. In addition to the clauses set forth in the standard form P-37, the State reserves the right to terminate this contract/grant and to award a new contract/grant to a new contractor/grantee for any unearned portion of the contract price if the contractor/grantee fails to perform according to the timeline promised, fails to comply with accountability requirements in this Agreement and ARRA, or fails to file monthly reports on time.

The following Buy American contract term shall be included in any contract or grant where the ARRA funds being awarded by contract or grant that will or may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work. Contracting Officers and Grant Managers must determine if the project/grant is subject to any other federal "Buy American" or "Buy America" laws. The Contract Manager or Grant Manager shall substitute the federally-mandated contract term for this term where the federal agency providing ARRA funds has provided specific language regarding that federal program's "Buy America" or "Buy American" requirements. To the extent the responsible federal Secretary has waived the application of "Buy American" or "Buy America" requirements for specified iron, steel, or manufactured goods, a list of pertinent waived items should be incorporated into the contract. Consult with the Assistant Attorney General assigned to your Department and/or the Business Supervisor from the Department of Administrative Services assigned to your Department for assistance if needed.

Buy American:

The Contractor/Grantee agrees to comply with the Buy American requirements in Section 1605 of ARRA. Unless this requirement has been waived by a competent federal authority pursuant to 2 CFR 176.140, none of the funds appropriated or otherwise made available by the American Recovery and Reinvestment Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States. When using funds appropriated under the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5), the definition of "domestic manufactured construction material" requires manufacture in the United States but does not include a requirement with regard to the origin of the components. Production in the United States of the iron or steel used as construction material requires that all manufacturing processes must take place in the United States, except metallurgical processes involving refinement of steel additives. These requirements do not apply to steel or iron used as components or subcomponents of other manufactured construction material. There is no requirement with regard to the origin of components or subcomponents in other manufactured construction material, as long as the manufacture of the construction material occurs in the United States.

As used in this "Buy American" term and condition:

(1) Manufactured good means a good brought to the construction site for incorporation into the building or work that has been:

(i) Processed into a specific form and shape; or

(ii) Combined with other raw material to create a material that has different properties than the properties of the individual raw materials.

(2) Public building and public work means a public building of, and a public work of, a governmental entity (the United States; the District of Columbia; commonwealths, territories, and minor outlying islands of the United States; State and local governments; and multi-State, regional, or interstate entities which have governmental functions). These buildings and works may include, without limitation, bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, heavy generators, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals, and the construction, alteration, maintenance, or repair of such buildings and works.

(3) Steel means an alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements.

A federal law, commonly known as the "Buy American Act," 41 U.S.C.A. § 10A-10D, exists as a separate and additional legal limitation on the use of ARRA federal funds. The Contractor/Grantee agrees to use only domestic unmanufactured construction material, as required by the Buy American Act.

The Contractor/Grantee acknowledges to and for the benefit of the State of New Hampshire that it understands the goods and services under this Agreement are being funded with monies made available by ARRA and such law contains provisions commonly known as "Buy American;" that requires all of the iron, steel, and manufactured goods used in the project be produced in the United States ("Buy American Requirements") including iron, steel, and manufactured goods provided by the Contractor pursuant to this Agreement. The Contractor/Grantee hereby represents and warrants to and for the benefit of the State that (a) the Contractor/Grantee has reviewed and understands the Buy American Requirements, (b) all of the iron, steel, and manufactured goods used in the project funded by this agreement will be and/or have been produced in the United States in a manner that complies with the Buy American Requirements, unless a waiver of the requirements has been approved by federal authorities, and (c) the Contractor/Grantee will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the Buy American Requirements, as may be requested by the State. Notwithstanding any other provision of the Agreement, any failure to comply with this paragraph by the Contractor/Grantee shall permit the State to recover as damages against the Contractor/Grantee any loss, expense or cost (including without limitation attorney's fees) incurred by the State resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the State or any damages owed to the State).

The Contractor (or the Grantee with any contract issued pursuant to the grant agrees to require a certification from the Contractor) agrees to certify compliance with a certification in the following form:

1. Identification of American-made Iron, Steel, and Manufactured Goods: Consistent with the terms of the bid solicitation and the provisions of ARRA Section 1605, the Contractor certifies that the bid on which this contract is based reflects the Contractor's best, good faith effort to identify domestic sources of iron, steel, and manufactured goods for every component contained in the bid solicitation where such American-made components are available on the schedule and consistent with the deadlines prescribed in or required by the bid solicitation.
2. Verification of U.S. Production: The Contractor certifies that all components contained in the bid solicitation that are American-made have been so identified, and the Contractor agrees that it will provide reasonable, sufficient, and timely verification to the State of the U.S. production of each component so identified.

The following Prevailing Wage Provision is applicable to wages for labors and mechanics for any contract in excess of \$2,000 which is entered into for the actual construction, alteration and/or repair, including painting and decorating, of a public building or public work, or building or work financed in whole or in part from ARRA funds. Section 1606 of ARRA in effect applies the Davis-Bacon prevailing wage law and related federal laws to projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to ARRA. If there is any uncertainty regarding the applicability of this term, the Contracting Officer or Grant Manager shall consult with the Assistant Attorney General assigned to his/her department.

This law and the guidance on its implementation issued by OMB contemplate that the government agency will identify the pertinent wage determinations made by the federal department of labor and incorporate them into the contract. Determinations are county specific, and job specific. It may be necessary to obtain wage determinations if one has not been published for jobs to be created by the contract. For further information see: <http://www.gpo.gov/davisbacon/referencemat.html>

Prevailing Wage Requirements:

The Contractor/Grantee agrees to comply with the Wage Rate Requirements in Section 1606 of ARRA. In accordance with 2 C.F.R. §176.190, the standard Davis-Bacon contract clause as specified by 29 CFR §5.5(a) is set forth below:

29 CFR §5.5(a):

§ 5.5 Contract provisions and related matters.

(a) The Agency head shall cause or require the contracting officer to insert in full in any contract in excess of \$2,000 which is entered into for the actual construction, alteration and/or repair, including painting and decorating, of a public building or public work, or building or work financed in whole or in part from Federal funds or in accordance with guarantees of a Federal agency or financed from funds obtained by pledge of any contract of a Federal agency to make a loan, grant or annual contribution (except where a different meaning is expressly indicated), and which is subject to the labor standards provisions of any of the acts listed in § 5.1, the following clauses (or any modifications thereof to meet the particular needs of the agency, *Provided*, that such modifications are first approved by the Department of Labor):

(1) Minimum wages.

(i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each

classification for the time actually worked therein: *Provided*, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (a)(1)(ii) of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where the poster and wage determination can be easily seen by the workers.

(ii)(A) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract, shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

(1) The work to be performed by the classification requested is not performed by a classification in the wage determination; and

(2) The classification is utilized in the area by the construction industry; and

(3) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(C) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.

(D) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs (a)(1)(ii)(B) or (C) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.

(iii) Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided*, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

(2) Withholding. The NH Department of Health and Human Services (NH DHHS) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the contractor under this contract or any other State contract with the same prime contractor, or any other

federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, the (Agency) may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(3) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii)(A) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the NH DHHS if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to the NH DHHS. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the NH DHHS if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit them to the applicant, sponsor, or owner, as the case may be, for transmission to the NH DHHS, the contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the applicant, sponsor, or owner).

(B) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:

(1) That the payroll for the payroll period contains the information required to be provided under § 5.5 (a)(3)(ii)

of Regulations, 29 CFR part 5, the appropriate information is being maintained under § 5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;

(2) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

(C) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(B) of this section.

(D) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code or New Hampshire Revised Statutes Annotated Chapter 641.

(iii) The Contractor or subcontractor shall make the records required under paragraph (a)(3)(i) of this section available for inspection, copying, or transcription by authorized representatives of the State of New Hampshire or the federal Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the government agency may, after written notice to the contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

(4) Apprentices and trainees--

(i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable

apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(ii) Trainees. Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

(5) Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

(6) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses contained in 29 CFR 5.5(a)(1) through (10) and such other clauses as the NH DHHS may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

(7) Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

(8) Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference into this contract.

(9) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the federal Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

(10) Certification of eligibility.

(i) By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(ii) No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).

(iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001 and New Hampshire RSA Chapter 641.

(b) Contract Work Hours and Safety Standards Act. For any contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States and the State of New Hampshire, for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The NH DHHS shall upon its own action or upon written request of an authorized representative of the federal Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

(c) In any contract subject only to the Contract Work Hours and Safety Standards Act and not to any of the other statutes cited in § 5.1, the contractor or subcontractor shall maintain payrolls and basic payroll records during the course of the work and shall preserve them for a period of three years from the completion of the contract for all laborers and mechanics, including guards and watchmen, working on the contract. Such records shall contain the name and address of each such employee, social security number, correct classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid. Further, the records to be maintained under this paragraph shall be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the State of New Hampshire and the federal Department of Labor, and the contractor or subcontractor will permit such representatives to interview employees during working hours on the job.

The following term shall be included only for contracts involving the construction, reconstruction, alternation, remodeling, installation, demolition, maintenance, or repair of any public work or building with a total project cost of \$100,000 or more. It is required by RSA 277:5-a for such projects paid for in whole or in part by State funds and is a required contract term where only state managed federal funds will pay for the project.

The Contractor/Grantee agrees to have an Occupational Safety and Health Administration (OSHA) 10-hour construction safety program for their on-site employees that complies with the requirements set forth in RSA 277:5-a.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Mid-State Health Center:

We have audited the accompanying statements of financial position of Mid-State Health Center (a New Hampshire not-for-profit corporation) as of June 30, 2008 and 2007, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mid-State Health Center as of June 30, 2008 and 2007, and the changes in net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.
